

Medical grade professional treatments!

Dermaplaning-Facial

A minimally invasive procedure exfoliates your skin revealing fresh layers of healthy skin. Removing unwanted peach fuzz helps free pores of debris so your skin feels smooth, bright and youthful. Included is our brightening papaya fruit enzyme exfoliation peel, gentle exfoliation to reveal a visibly even toned and smooth complexion – followed by relaxing hydrating mask.

Dermaplaning can be done as an add-on service with other peels.

Mandelic Peel

Formulated **for redness-prone, sensitive and reactive skin**, this peel retextures skin and soothes redness for calm, more even complexion. It reduces mild chrono- or photo-aging and mild hyper pigmented skin while improving overall skin texture and tone.

REVEAL 10%

A combination **TCA+AHA+BHA** and natural fruit enzymes causing minimal irritation, producing almost no downtime, resulting in a powerfully effective corrective action. You may not have visible peeling on all skins, though flaking is to be expected. **A peel for all skin types** – to help correct acne, fine lines, wrinkles, hyperpigmentation, and uneven skin tone.

Produces remarkable skin brightening.

REVEAL 20%

A medical combination blend of **TCA+AHA+BHA** for complete skin renewal. This peel will produce peeling, flaking, and sloughing for up to 2 weeks.

For clients who have progressed to advanced tolerance. NOT recommended for darker skin tones, indicated for the correction of all photodamage symptoms. **Recommend to exfoliate skin 5 days prior to the peel.**

REVEAL (Glycolic) 30%

A comprehensive medical strength peel that effectively corrects the adverse signs of photoaging, including fine lines, wrinkles, and light hyperpigmentation without visible flaking. A secondary benefit is undoing the damage which could lead to skin cancer. Researchers have theorized that since most photodamage occurs in the superficial layers of the skin, it stands to reason superficial chemical peels could aid in reversing the effects of sun damage to those cells. Recent findings support the theory: ***Glycolic peels administered on a regular basis can reverse the changes associated with chronic UV exposure.***

INFUSION (Vitamin C) 30%

AHA + Vitamin C. This peel drastically reduces prominent and stubborn UV-induced hyperpigmentation, fine lines, wrinkles, hormonal acne, and localized age spots with a series of applications. ***Produces minimal flaking.*** Skin brightening peel!

TRANSFORM (Salicylic)

A highly effective BHA treatment detoxifies troubled skin while unclogging pores, improving the appearance of inflammation and delivering marked improvement for **acne** and acne scarring. **A deep strength peel, recommend series every 2-4 weeks.** Not appropriate for those sensitive or allergic to aspirin.

ZO Stimulator Peel

Are you looking for an amazing, result-driven, **no downtime, and professional resurfacing facial peel?** This superficial peel is perfect for all skin types. It targets dull, aging skin, and reduces fine lines, wrinkles, pore size, acne, pigment, and improves overall skin tone and texture.

ZO 3-Step Peel

A powerful effective method of treating fine lines, sun damage, dull skin, melasma, acne and uneven texture concerns. **It is safe and effective for any type of skin and has been demonstrated to have some of the most effective and long-lasting results.** Unlike other treatments that simply deal with the symptoms, this incredible system helps to strengthen and bolster healthy skin. One peel is enough to deal with most dermatological complaints, but those in need of deep healing should consider additional treatments 3-4 weeks apart.

Requires prepping the skin 4-6 weeks prior. 5-7 days downtime.

Include chemical peel to neck and or décolletage area, or include Dermaplaning to facial peel for an additional charge.

****Purchase 3 chemical peels and receive a 20% discount – excludes Dermaplane Facial***

Xeomin

The first FDA-approved anti-wrinkle treatment that’s uniquely purified to remove unnecessary proteins. Known as the “puretox,” Xeomin isolates the active component leaving only the uniquely purified neurotoxin!

Lip Flip

Includes rich ultra-luxurious lip replenisher that delivers immediate moisture that **plumps lips** and smooths lines and wrinkles. Defends against damaging environmental stressors for antiaging benefits. Restores natural, healthy lip color.
